

LETTRE D'INFORMATION DE SŒUR CLARA – SEPTEMBRE 2018

FEMALE AIDED OPEN SHELTER

Activities and report of Kirubalaya

At present we have a new sister Sr. Therese from the State of Telungana. The others sisters who were residing here previously have chosen the different mission and went back to their home. So it is usual only those persons who can commit to the type of mission Kirubalaya serves will continue to remain with Kirubalaya. Thus we have a new sister who will along with Sr. Clara & Arokia Mary. At present we have 50 children in the house consisting of 25 children sent by the

government in other 25 are the who live for a longer period of time in Kirubalaya

Tailoring & Typing

Typewriting classes along with other methods of rehabilitation techniques. Children are given special training to do tailoring also embroidery. This makes them to orient to their minds from their past wounds. Children are so exposed to learning typing skill which may help them to get placed in near future.

Children Drawing

To bring out the talents of the children they were asked to make drawing and their own creativity. I

have attached few drawings of the children.

As the rehabilitation methods of Kirubalaya we have adopted informal training for the children like

Food & Nutritions

The children are given regular sports and games training to release their energy and refreshed. With much of hard work and generous

contribution of friends of Mrs. Jacqueline, Mrs. Paulette and Mr. Bernard we have bought a new school bus for the transport facilities of the children. Children are so happy and they travel in this bus. We have attached few photos.

Games

**KST Extension Construction
New Television Installation
New School Bus**

The extension building of Kirubalaya is coming up very fast, soon it will reach the roof top. We remain grateful to the generous contribution of Air France foundation through Mrs. Paulette and Mr. Dominique, and the benefactors of SEVA Onlus Italy. When this gets completed children will have sufficient space to move around for

their study and stay. Kirubalaya will have also enough of space for its official office works. We

remain thankful for the money till now sent by both the association we assure that the money will be used only for the construction. With the hard works Mrs. Jacqueline we have bought a new Television for the children and it has been installed. Children are happy to watch programs and films. We really thank you the contribution towards purchase of this Television. We remain grateful to our benefactors for all the unreserved and selfless help that you are rendering for the growth of the unfortunate children. Though we do not send you our updates we do keep in our heart the great things that you do for our growth. We grow by your hard work. Without your selfless service the children at

risk will continue to the in danger zone. Thank you for your love and concern. With love Sr. Clara & Children
